

Md Mohebur Rahman Monir

Junior MERN Stack Developer

+88 01887 344542 | mdmohiburrahmanmanik@gmail.com | [Portfolio](#) | [Github](#) | [Linkedin](#) | Sylhet, Sunamganj

Career objective

I am **Md Mohebur Rahman Monir**, Motivated Junior MERN Stack Developer with a strong interest in both frontend and backend development. **Skilled in ReactJS, NodeJS, ExpressJS and MongoDB**, with a passion for building responsive and scalable web applications. I am writing to express my interest in the **Junior MERN Stack Developer** position at your organization.

Skills

- **Frontend:** HTML5, CSS3, JavaScript ES6+, React.js, Next.js, React Router, Context API
- **UI / Styling:** Tailwind CSS, Bootstrap, DaisyUI, shadcn/ui, Material UI, Framer Motion
- **Backend / MERN:** Node.js, Express.js, MongoDB, REST API, CRUD, JWT, BetterAuth, server-side validation
- **Forms / Data:** Axios, Fetch API, React Hook Form, Filtering, Search, Protected-routes, error handling
- **Tools / Deployment:** Git, GitHub, Vercel, Netlify, npm, Postman, Chrome DevTools, ESLint, VS Code
- **AI Workflow:** ChatGPT, Gemini, GitHub Copilot, Cursor, Antigravity, prompt engineering, AI-assisted debugging, README writing

Adaptability

Quick learner with a strong passion for exploring new technologies and modern development practices. Adaptable to changing project requirements and eager to learn new tools, frameworks, and industry trends to build efficient and scalable web applications.

Project

Reflectify- Online Knowledge Sharing platform

[Live GitHub](#)

Description's: Reflectify is a full-stack knowledge-sharing and social networking platform where users can create and share lessons, publish posts, like, comment, report and engage with the community. Inspired by Facebook's familiar interface, the platform allows users to explore public profiles, interact with content, and build an active learning community. User can view public profiles like Facebook user profiles.

- Implemented a lesson publishing system that enables users to create and share educational content.
- Built a post system where users can share knowledge, ideas, and updates with the community.
- Added engagement features including likes, comments, and a report system for community moderation.
- Enabled users to view public profiles, browse shared content, and interact with other community members.
- Implemented secure authentication and role-based access control for a safe and reliable user experience.

Tech: React.js, Next.js, MongoDB, Better Auth, Tailwind CSS, HeroUI, Radix UI, Framer Motion, Stripe, Recharts

SportsHub- Sports facilities share and rental platform

[Live GitHub](#)

Description's: The frontend provides a responsive and user-friendly interface for browsing sports-related content, while the backend handles APIs, data management, and user interactions efficiently.

- Users can browse and book various sports facilities — including football grounds, cricket fields, badminton courts, basketball courts, swimming pools, and gyms — all from one platform.
- Each facility listing shows the location, price per hour, and details, making it easy to compare and choose the right venue instantly.
- The booking process is smooth and hassle-free, with verified and top-rated venues available across multiple locations in Sylhet and nearby areas.

Tech: ReactJS, NextJS, MongoDB, ExpressJS, NodeJS

BookHub- Online Book Borrowing platform

[Live GitHub](#)

Description's: A full-stack web application built using the MERN stack that allows users to browse, borrow, and manage books online. The frontend offers a clean and responsive interface for exploring book collections.

- Users can browse a huge collection of books across genres like fiction, self-help, and programming, and borrow them instantly online — without any paperwork or hassle.
- Books are accessible 24/7 from anywhere, with smart return date reminders and a fast return management system built right into the platform.
- The platform offers flexible membership plans — from weekly to yearly — with benefits like doorstep delivery, unlimited e-book access, and priority customer support.

Tech: ReactJS, NextJS, MongoDB, BetterAuth, ShadCN

Education B.A Honours || Dowarabazar Degree College || 2020 – 2023

Freelance & Volunteer Work

Developed responsive and user-friendly websites for personal and small business projects assisted in designing and building modern web applications using the MERN stack

Online Courses & Bootcamps

Completed a 6-month MERN Stack Web Development course from **Programming Hero**

Gained hands-on experience in MongoDB, Express.js, React.js, and NodeJS projects and assignments

Language Bangla - Native || English - Conversational
